

MRP[®]
ELITE
BY **GAGEMAKER**

New Lightweight
Carbon Fiber Construction!

Large Diameters, Deep Reach, & Premium Applications

**THE NEW & IMPROVED MRP[®] ELITE
CARBON FIBER CREST DIAMETER GAGE**

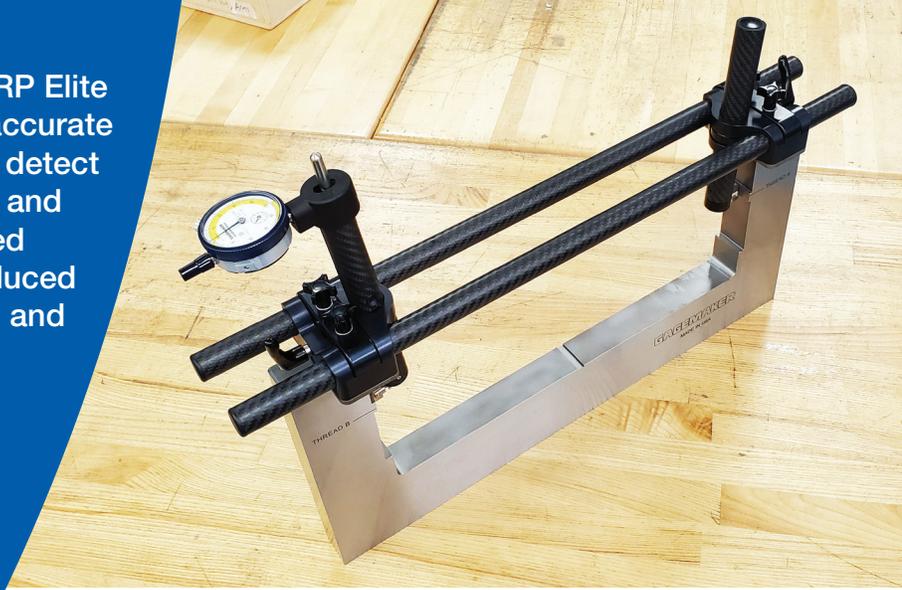

Made to exacting specifications, our new MRP Elite Carbon Fiber Crest Diameter Gage is more accurate and rigid than any other model. Immediately detect the slightest variations in thread ovality, seal and crest diameters with the MRP Elite. Minimized deflection due to increased stiffness and reduced weight ensures more accuracy, repeatability, and reproducibility between users.

MRP-ELITE-2003 Includes:

- 4½" Reach Internal Upper Pivot Indicator Arm*
- 10" Reach Internal/External Upper Direct Read Indicator Arm**
- 10" Reach Lower Arm
- Two MRP-.625E Shoes
- 0.0005" Res. MRP Dial
- Two 12" Long Rails
- Hand Adjustable Aluminum Block Assemblies

*Not included with the MRP-ELITE-2001

**Not included with the MRP-ELITE-2002

Measure Large Diameters and Deep Reach Applications for API & Premium Tubing & Casing

FEATURES & BENEFITS

- Measure Both External and Internal Parts with One Gage
- No Tools Required for Setting or Adjusting
- Avoid Damaging Rails with Easy Knob Turning and Lever Action Clamping
- Weight Reduced Significantly for Improved Ergonomics
- Minimized Deflection for Increased Accuracy
- Base Models Measure Connection Diameters of 2⅞" - 11¾"
- Rails available for 18", 24", & 36" diameters
- Save Time with Easier Gage Setup and Use
- Custom Parts & Accessories are Available
