

Measuring Oil for Environmental Safety, Quality and Purity

Ideally Suited for Wastewater, Process Water, Drinking Water and Soil Applications

CLEARSHOT EXTRACTION TECHNOLOGY
OIL & GREASE MEASUREMENT

NEXUS
ANALYTICS

Delivering Advanced Analytical Solutions

OSS ClearShot™ Advantage

- ◆ **Significantly Reduces Test Time and Complexity, with Higher Accuracy**
- ◆ **Reduced Cost via Chemical Savings, Risk Mitigation and Less Time**
- ◆ **Environmental Benefits Achieved with Reusable Components and Reduction of Hazardous Waste**
- ◆ **Eliminates All Solvents and the Requirement for Chemical Hoods, Minimizing Glassware and Lab Space**
- ◆ **Testing Performed in the Field, Production Facility or Laboratory**
- ◆ **Provides Ability to Identify Oil(s) to Detect the Problem Source**
- ◆ **Standard Method Measures Oil Concentrations from 0.2 to 200ppm**
- ◆ **Internationally Approved as ASTM D7575**
